

ABOUT THE ARTIST

Catherine has been working with clay and glass for 24 years. She holds a BFA degree in ceramics from BGSU and took graduate studies in glass at OSU. Her art work is sold at art shows in Ohio, galleries and at her home by appointment or during her open houses.

Cathy has loved offering classes in her pottery studio to all ages since 1994. She also has been sharing the joy of painting and drawing through classes. She is dedicated to development and growth of children's art skills at all ages. She believes that creating ART should be an enjoyable experience for young children and more challenging as one matures. Therefore she provides a comfortable environment for free expression in her home studio. Pieces of art are created using high quality supplies and the encouragement and knowledge of a professional artist. Cathy's clay studio is located at **371 N. Granview Rd.** This is where she offers her year round classes and camps.
